This acclaimed encyclopedia contains all the expert advice the indoor gardener needs,

from purchasing and positioning to pests and diseases. Any indoor gardener can achieve success, even with exotic plants and rare varieties, by using this book. At the book's core is a 250-page A-Z listing the botanical names of 1,000 houseplants for the home, from interior rooms to the balcony, patio and sun lounge. Each entry includes a full colour photograph of the plant, a detailed description and straightforward horticultural advice. This book includes information on: placement and purchase; what you should know about plants; successful care and propagation; living greener, living better; the 1,000 most beautiful plants from A-Z; step-by-step to success with more than 1,000 indoor plant varieties. It contains frequent boxed features and sidebars that provide additional data about particular care requirements for a wide range of houseplants.
