著者:Heriteau, Jacqueline/ Thomas, Charles B.

出版者:Houghton Mifflin

出版时间:1996-8

装帧:Pap

isbn:9780395709351

In this definitive book, readers will learn how to create and maintain water features--ponds, fountains, waterfalls, and small containers--and how to plant the garden and stock it with fish. An illustrated encyclopedia of 200 hardy and tropical lilies, the sacred lotus, delicate floating plants, and plants for pond edges makes this

an authoritative book on the subject.
