A leader in the Maker Movement shows how you can create the next disruptive innovation. A pioneer of the Maker Movement, Mark Hatch explains how new technologies and economic upheavals are paving the way for individuals to create, innovate, make a fortune - and even drive positive societal change - with nothing more than their own creativity and some hard work. This is a call to action for both makers and would-be makers. Whether you're a banker, lawyer, teacher, tradesman, or politician - you can play an important role in the Maker society. Mark Hatch is the CEO of TechShop, a membership-based, DIY maker space with six locations throughout the U.S.
