A pioneer in the field of body energetics Mark Seem explains in ACUPUNCTURE IMAGING how bodyworkers and their clients can develop a clear understanding of the energetic systems of the bodymind to arrive at a personal approach and treatment style in acupuncture and all other meridian therapies. He shows how to recast and reconceptualise physical emotional and psychological problems in terms of disrupted energy flow enabling readers to see feel and experience these disturbances in a way that allows for change. By approaching the meridian systems in visual and sensory terms a practitioner is able to tell the energetic 'story' that he or she is exploring with a patient thereby guiding and assisting the healing process. ACUPUNCTURE IMAGING will be of great help to students teachers practitioners and patients of the diverse energetic and meridian therapies particularly shiatsu and acupressure as well as psychotherapists and those interested in Eastern concepts of medicine.
