isbn:9781587612800

The second edition of this comprehensive guide to cancer helps patients and their caregivers learn about causes and prevention of cancer; offset the side effects of conventional medicine; evaluate effective alternative treatments; utilize natural therapies involving diet, lifestyle, and nutritional supplements; and achieve deep healing through a mind-body-spirit approach. Featuring in-depth discussions of 20 specific cancers, including detailed descriptions of integrative treatments, this accessibly written guide is an invaluable tool for understanding and implementing integrative and complementary cancer care.
