出版时间:2007-6

装帧:Pap

isbn:9781594771804

In this complete and natural-approach guide to healthy aging, medical herbalist, David Hoffmann, addresses the unique concerns of people approaching age fifty and older. He examines each of the body's major systems - from the muscles and bones and the digestive system to the pulmonary, cardiovascular, and reproductive organs -

discussing not only how to maintain each system's natural functioning but, also, the specific health concerns brought about by ageing. Hoffmann's herbal treatments focus on prevention and promoting longevity, but he, also, offers herbal remedies for specific ailments such as hypertension, insomnia, bronchitis, varicose veins and arthritis. The book's Materia Medica includes more than 150 herbs, by both common and Latin names and specifies which part of the plant to use, the actions and indications, preparation methods, and recommended dosages. The natural healing properties of herbs provide a welcome alternative to the unpleasant and sometimes dangerous side effects that can be brought on by synthetic drugs, and they minimise the dependence on conventional medical treatments that can have conflicting protocols and results.
