isbn:9780803942998

Encapsulating the work of a classic nursing theorist, this book provides a unique overview of Orem's Self-Care Deficit Model of Nursing. Orem's model proposes that nursing should be especially concerned with the patient's need to move continuously towards responsible action in self-care in order to sustain life and health or to recover from disease or injury. The actions required of nurses to achieve these goals are clearly described.
