isbn:9780340939598

This is a new and updated edition of a very popular book, designed for reflexologists training for any level of qualification, and especially suitable for those undertaking the new CPD qualification. A uniquely comprehensive and holistic approach to examining the structure and nature of the foot, it is useful not only for those needing practical instruction and information, but also for those who wish to learn about the spiritual and emotional context of both reflexology generally and their clients in particular.
