isbn:9780834216556

An ideal text for students preparing for careers as community health educators. In this edition students can learn how to prepare for certification; get an overview of the practice of community health education; learn about the most common settings of practice today, the differences of these setting, and their options for employment. In addition, they will explore the fundamental goals of Health People 2000 and Health Communities 2000, which all agencies are adopting. Filled with checklists and guidelines, useful addresses, In-Basket assignments that reinforce learning, credentialing competencies, codes of ethics, and much more. An Instructor's Manual is available.
