装帧:Pap

isbn:9780132334686

An essential, portable reference tool, this is a set of anatomy flashcards printed in a small, thin 8.5 x 11 booklet of 2 perforated cards per page. It contains 88 cards showing various labeled anatomical images applied to therapeutic bodywork. Each side of each card has self-contained information about muscles, origins, insertions, actions, and nerves. Multiple muscles per card promotes relational/pattern learning.
