The second edition of "The Nonprofit Sector" provides a novel, comprehensive, multi-disciplinary survey of nonprofit organizations and their role and function in society, and it also examines the nature of philanthropic behaviours. Each of the 27

all-new, commissioned chapters is written to stand on its own. The contributors, all of whom are prominent scholars in their respective fields, address the history and scope of nonprofit activities in the U.S. and abroad, the relation of nonprofits to the marketplace, government-nonprofit issues, key activities of nonprofits, aspects of giving to and joining nonprofits, and nonprofit mission and governance. Reflecting upon the variety of changes in the rapidly growing world of nonprofits, this new edition examines a wider array of organizations, international issues, social science theories, and insights into philanthropic traditions. For everyone who wishes to have a deeper understanding of the nonprofit sector, this is the essential handbook.

翻书党#这本手册算是#npo#领域最好的了，更偏重研究性。从非营利董事治理到筹款到管理志愿者都有涉及，每一章写的学者也都是领域内成名已久的人物。值得一读。一点翻书经验，就是入门读手册。
