At the beginning of the 20th century, the Austrian Empire ranked third among the world's oil-producing states. By 1918, the Central Powers did not have enough oil to maintain a modern military. How and why did the promise of oil fail Galicia (the province producing the oil) and the empire? Alison Frank traces the interaction of technology, nationalist rhetoric, social tensions, provincial politics, and entrepreneurial vision in shaping the Galician oil industry.

文笔很好，清晰可读。但是故事就没那么有意思了。
