There's no denying the charm of San Francisco, a city perched on rolling hills, where little cable cars climb half-way to the stars." With dramatic vistas at every turn, the Pacific Ocean to the West and Bay to the East, its geography and cityscape is like no other place on Earth.

This unique book features a selection of dramatic photos taken before, during, and after the 1906 Earthquake and fire.

Filled with amazing then-and-now photographs of the City's notable attractions, including cable cars, the Ferry Building, Palace of Fine Arts, Transamerica Pyramid, and

Mission Dolores, the oldest building in SF.

San Francisco's most beloved landmark gets the royal treatment. See the Golden Gate Bridge during construction in 1934, and how it looks today.
