isbn:9780073513249

This collection of primary, secondary, and visual sources for the Western Civilization survey course provides a broad introduction to the materials historians use, the interpretations historians make, and 6,000 years of Western civilization. Its broad selection of documents, photographs, maps, and charts, and its full array of accompanying commentaries - drawn from a balanced spectrum of perspectives and approaches - offer valuable insight into the work of historians and provide the context that helps students understand the texts' full historical significance.
