This book presents a major new narrative history of the most famous battle in Scottish history. This is to be a book about a battle, about the events that took place amidst the showers of sleet on that grim day 16th April 1746, the last pitched battle to be fought on British soil. Not only did it mark the final ruin of the Jacobite cause that had erupted sporadically since the ousting of James II of England and VII of Scotland by his son in law William of Orange in 1689 but it also witnessed the bitter death knell of the highland clans.
