出版时间:2014-1-16

装帧:Hardcover

isbn:9780415854825

This book brings together leading scholars of development to propose new theoretical understandings of the relationship between development and the state. Focusing on the role of the state in the developing and transitional economies of South Korea, Taiwan, Ireland, China, South Africa, Brazil and India, the volume outlines the major challenges - including global economic and ecological crises - and argues that these challenges require new forms of state interventions.

作者介绍:

Michelle Williams is Associate Professor in Sociology and Chairperson of the Global Labour University Programme at the University of the Witwatersrand (Wits).
