著者:Levine, Lawrence W.

出版者:Oxford Univ Pr

出版时间:2007-4

装帧:HRD

isbn:9780195305692

When Black Culture and Black Consciousness first appeared thirty years ago, it marked a revolution in our understanding of African American history. Contrary to prevailing ideas at the time, which held that African culture disappeared quickly under slavery and that black Americans had little group pride, history, or cohesiveness, Levine uncovered a cultural treasure trove, illuminating a rich and complex African American oral tradition, including songs, proverbs, jokes, folktales, and long narrative poems called toasts--work that dated from before and after emancipation. The fact that these ideas and sources seem so commonplace now is in large part due to this book and the scholarship that followed in its wake. A landmark work that was part of the "cultural turn" in American history, Black Culture and Black Consciousness profoundly influenced an entire generation of historians and continues to be read and taught. For this anniversary reissue, Levine wrote a new preface reflecting on the writing of the book and its place within intellectual trends in African American and American cultural history.
