In the near future, humanity will be faced by a grave challenge: mutation. Gifted with an array of incredible powers, the X-Men have fought to break down the barriers of fear and hate between human and mutant-kind over fifty years and three hit movies. "Comics Creators on X-Men" is the definitive look at the mighty mutants in comics, including interviews with original co-creator Stan Lee, fan-favourite Chris Claremont, superstar artists Joe Madueira and Alan Davis, and current writer Joss Whedon. Packed with exclusive sketches, script pages, rare and classic covers, and essential background information on the "X-Men's" labyrinthine history and vast cast of characters, this is a book no X-fan can do without!
