Cultural Responses to the Persian Wars addresses the huge impact on subsequent culture made by the wars fought between ancient Persia and Greece in the early fifth century BC. It brings together sixteen interdisciplinary essays, mostly by classical scholars, on individual trends within the reception of this period of history, extending from the wars' immediate impact on ancient Greek history to their reception in literature and thought both in antiquity and in the post-Renaissance world. Extensively illustrated and accessibly written, with a detailed Introduction and bibliographies, this book will interest historians, classicists, and students of both comparative and modern literatures.
