THE ECHOES OF OUR PAST Twelve thousand years ago, the human race barely escaped annihilation when a piece of exploded star passed through our solar system, unleashing an apocalypse. Great fires raged, mountains rose and fell, a maelstrom of cosmic debris bombarded Earth, continents broke apart, and oceans swept across the land. Millions of people, animals, and plants perished almost overnight. Entire societies, cultures, and belief systems were lost forever. The resulting aftershock shaped humanity for thousands of years, and continues to haunt us to this day. This is not fiction. This is history. THE TRUTHS OF THE PRESENT Using authoritative source material and an understanding of mankind's aptitude for the transmission of factual knowledge through myth and legend, Joseph Christy-Vitale dramatically unveils a past unlike any proposed by either religion or science, viewing the global catastrophe as living history, since the traumatic effects of that terrible event affect us as a species even today. THE PATHS OF THE FUTURE Providing an insight into where our troubled view of the world originated, "Watermark" tells the true story of how humanity's brush with extinction still pervades our lives -- and offers the first step to recovering what we lost so long ago: a healthy, balanced view of the world.
