Numbers 13 and 14 the Osprey Modelling Series see the start of a regular subseries on modelling specific AFVs. The first covers the best German tank of WW2, the Tiger, the

mount of top tank commander Michael Wittmann. With detailed step-by-step model photography, specially commissioned walkround photography, scale drawings and wartime shots, these books provide all the details needed to model the main Tiger I version - the Ausf E - and its variants. There is a full roundup of the models available on the market, details of where you can see the real thing, a select bibliography, and survey of websites of interest.
