"Bridging Troubled Waters" is about a robust and holistic approach to resolving conflict. It begins where much of the currently accepted theory and practice in the field leaves off. Like a hand pulling back the curtain from parts of us that have been closeted away, this book reveals ways we can use more of ourselves in addressing conflict. Moving beyond the analytic and the intellectual, it situates our efforts at bridging conflict in the very places where conflict is born-relationships. From relationships come connection, meaning, and identity. It is through awareness of connection, shared meaning, and respect for identity that conflicts are transformed.
