This library and classroom tool should make it easy for students to research and debate the core political ideas and issues of the founding period. The profound arguments regarding republicanism, federalism, constitutionalism, and individual rights come to life here, contextualized with introductory explanations to stimulate analysis and appraisal of the positions. Unique to this collection are documents relating to the establishment of constitutional governments in the original 13 states, debate over the Bill of Rights, and documents reflecting a variety of alternative voices, including letters and petitions from women and African-American and Native-American leaders. This presents a broader picture of the issues that confronted those who framed our government than has ever before been available.
