出版时间:2006-10-20

装帧:Paperback

isbn:9780618308057

This volume traces the history of environmental conditions in the United States through the examination of critical issues such as pollution, conservation, and wilderness preservation. The Second Edition of this popular text includes several new essays and documents and pays particular attention to multiculturalism and gender throughout. In order to place American environmental issues in a larger context, the text emphasizes international relations and globalization.
