出版者:Prentice Hall; 2 edition

出版时间:(24 Feb 2005)

装帧:22.4 x 14.7 x 1.3 cm

isbn:9780131835528

History in Crisis? provides students with an in-depth look at the practices, methods, and theoretical assumptions Western historians employ in their quest to decipher and interpret events of the past. Students are exposed to the inner workings of the historical world, allowing them to discover and understand the approaches historians utilize to conduct research, and to fully comprehend what the pursuit of historical truth actually entails. By offering an introduction to historical research, a brief survey of the formal philosophy of history, and investigations of the concerns and questions facing today's historians, Norman J. Wilson provides students with the skills and tools necessary to understand the study of history, analyze historical problems, and most importantly, become active participants in the currently expanding historical conversation

tedious

HI200 平淡无味的历史的历史。也怪我一晚上快速浏览完，何谈enjoy?
