"The Debate on the Constitution" charts the course of the bloodless revolution that created the government of the United States and the world's oldest working national charter. In speeches, newspaper articles, pamphlets, and letters, this unique collection captures firsthand the energy and eloquence of the stormy ratification struggle. Franklin, Madison, Jefferson, Washington, Patrick Henry, and many less well known voices speak with passion and articulateness about issues of personal liberty and public order that continue to resonate in today's headlines. Along with a detailed chronology and notes, each volume also includes the full texts of the Declaration of Independence, Articles of Confederation, and Constitution.
