isbn:9780521857499

A number of major blockades, including the Continental System in the Napoleonic Wars, the War of 1812, the American Civil War, and World Wars I and II, in addition to the increased use of peacetime blockades and sanctions with the hope of avoiding war, are examined in this 2007 book. The impact of technology and organizational changes on the nature of blockades and their effectiveness as military measures are discussed. Legal, economic, and political questions are explored to understand the various constraints upon belligerent behavior. The analysis draw upon the extensive amount of quantitative material available from military publications.

一位社会科学教授，一位经济与历史教授。结论是战时或和平时期的“封锁成功率看起来并不是很高。军事力量和成产能力对战争结果更重要”。冲突产生时，封锁一般不会遵守国际协议。未来的封锁成功率也未必会增加。（就喜欢看这种自己人黑美国又不会被怎么样的书）
