His friends called him "Kid," but to his enemies, he was better known as "The Wolf." He wandered along the Rio Grande and over the Chisholm Trail on his trusty horse Blizzard. In the wild regions where the law of the six-gun ruled, Kid Wolf was never far from the action. Kid Wolf was a defender of the underdog and down-trodden. He had the musical drawl and soft accents of the Deep South, making him seem quite mild-mannered. But those who made the mistake of underestimating Kid Wolf often lived to regret it...if they lived at all.
