The frozen wilderness of the Far North has long tested the most extreme and reckless of adventurers. In *Prisoners of the North*, Pierre Berton depicts five extraordinary characters who were in thrall to the Arctic's forbidding landscapes: a mining tycoon; an explorer; a titled lady; a backwoods eccentric; and a best-selling poet. Their life stories give us a compelling portrait of the Arctic, long before it was tamed by the bush plane, the snowmobile, and the paved highway.
