This is a main selection of the History Book Club. "Expertly renders the furious ebb and flow of the two-day battle, capturing both the evolving strategies of each side and the horrendous experience of the fight...[This book] is built upon a bonanza of primary research, with the author having combed hundreds of diaries, letters, memoirs, interviews, official reports and regimental histories. The individual voices and the rich experiences they represent are unforgettably presented here." - "New York Times Book Review".
