isbn:9780801485251

John Rogers here addresses the literary and ideological consequences of the remarkable, if improbable, alliance between science and politics in seventeenth-century England. He looks at the cultural intersection between the English and Scientific Revolutions, concentrating on a body of work created in a brief but potent burst of intellectual activity during the period of the Civil Wars, the Interregnum, and the earliest years of the Stuart Restoration. Rogers traces the broad implications of a seemingly outlandish cultural phenomenon: the intellectual imperative to forge an ontological connection between physical motion and political action.

作者介绍:

John Rogers is Associate Professor of English at Yale University.

评论

很好地交代了当时的科学话语和内战时期的政治理论有多么密切的联系。主要关注vitalism和materialism 不涉及宇宙论
