isbn:9780140166224

The Nuremberg trials remain, after nearly a half a century, the benchmark for judging international crimes. Using new sources--ground-breaking research in the papers of the Nuremberg prison psychiatrist and commandant, the letters and journals of the prisoners, and accounts of the judges and prosecutors as they struggled through each

day making compromises and steeling their convictions--Joseph Persico retells the story of Nuremburg, combining sweeping history with psychological insight. Here are brilliant, chilling portraits of the Nazi warlords and riveting descriptions of the tensions between law and vengeance, between East and West, and of the friction already present in the early stages of the Cold War.
