Here, for the first time, in a brilliant, panoramic portrait by the Pulitzer Prize-winning author of *The Making of the Atomic Bomb*, is the definitive, often shocking story of the politics and the science behind the development of the hydrogen bomb and the birth of the Cold War. Based on secret files in the United States and the former Soviet Union, this monumental work of history discloses how and why the United States decided to create the bomb that would dominate world politics for more than forty years.

评论

大量笔墨放在苏联间谍身上，鸡毛蒜皮写了很多间谍故事，而对苏联研制核弹的关键历史写的非常简略。甚至连美国研制氢弹的历史也写得并不详细，主要笔墨用来黑化泰勒，从Mark蛋蛋到第一颗实用氢弹的历史写得相当仓促，更别提介绍萨哈罗夫的氢弹了。全书虎头蛇尾，最终草草收场。
