出版时间:2005-9

装帧:Pap

isbn:9780976658344

The story that Stephenie Hendricks has uncovered affects the entire globe. In *Divine Destruction*, she charts important connections between Wise Use—a rabidly anti-environmental philosophy—and dominion theologians—far-right Christian ideologues who believe that there is no reason to protect the environment given the imminence of the Second Coming of Christ. But this collaboration also reaches all the way to the Bush administration, whose environmental policies are deeply influenced by dominionist thinking.

*Divine Destruction* is an in-depth look at the radical remaking of American environmental policy already underway—in terrifying secret.
