The Mongol Empire was founded by Chinggis Khan in the early thirteenth century. Within the span of two generations it embraced most of Asia, thus becoming the largest land-based state in history. The united empire lasted only until around 1260,

but the major successor states continued for many generations, in the Middle East, present-day Russia, Central Asia and China. It left a lasting impact on these areas and their peoples, which was often far from negative! The papers in this volume offer fresh perspectives on the Mongol Empire, its rule in the eastern Islamic world, Central Asia and China, and the legacy of this rule. Various authors approach the matter from a variety of views, including political, military, social, cultural and intellectual. In doing so, they shed a new light on the Mongol Empire.

## 作者介绍:

Reuven Amitai-Preiss, Ph.D. (1990) in Middle Eastern History, Hebrew University of Jerusalem, is Senior Lecturer in medieval Islamic history at the Hebrew University, and author of *Mongols and Mamluks: The Mamluk-Ilkhanid War* (Cambridge, 1995).
