Composed in his famously witty style, yet succinct to the point of sharpness, this is one of A.J.P. Taylor's best-known books, and is a notoriously idiosyncratic work written during the last days of the Second World War.

The history of the Germans is a history of extremes. It contains everything except moderation, and in the course of a thousand years the Germans have experienced everything except normality. They have dominated Europe, and they have been the helpless victims of the domination of others; they have enjoyed liberties unparalleled in Europe and they have fallen victim to despotisms equally without parallel; they have produced the most transcendental philosophers, the most spiritual musicians, and the most ruthless and unscrupulous politicians. 'German' has meant at one moment a being so sentimental, so trusting, so pious, as to be too good for this world; and at another a being so brutal, so unprincipled, so degraded, as to be not fit to live. Both descriptions are true: both types of German have existed not only at the same epoch, but in the same person. Only the normal person, not particularly good, not particularly bad, healthy, sane, moderate – he has never set his stamp on German history.
