出版者:McGraw-Hill College

出版时间:1999-8

装帧:Pap

isbn:9780070648456

These volumes present a collection of primary source materials from the earliest times to the present intended for use in college courses in Western Civilization. An outstanding feature of the book is the wide variety of source materials included - readings from literary classics, letters, biographies, chronicles, diaries, philosophic and scientific writings, and government records. Women's history is emphasized throughout.
