Trim carpenter Craig Savage gives practical advice for hanging doors, setting windows, buying, making and installing molding, selecting tools and finishing trim with paint or varnish. Savage also gives real solutions to everyday problems, such as what to do when walls are out of plumb or floors out of level. And to help the reader get started,

there is a photo gallery of inspiring examples of the trim carpenter's art. "A handy refresher for the journeyman, explicit help for the do-it-yourselfer, and a must for the framing carpenter..." -- The Sacramento Bee/p
