Are you not one to take “I don’ t want to date you” for an answer? Do you consider the day the court ordered you to keep your distance merely the day your relationship entered a new phase? Then you’ ve already figured out that despite what other books may try to tell you: He Just Thinks He’ s Not That Into You. This book is built on one solid principle: men don’ t know what they want, so it’ s up to you, the strong, loving, forceful women of the world, to show them. Written as a series of letters to an insanely-determined advice columnist, this book is full of savagely funny answers, plus useful tips and success stories on stalking and holding onto the one you love-with handcuffs if necessary. Pie charts, bullet points, and wacky illustrations complete the satire. Has the bag boy at the supermarket been telling you to “have a nice day” ? Danielle says “he means ‘with me’ ! Grab that in-store special and take him home. Soon the grocery aisle won’ t be the only aisle you’ ll be walking down!”
