THE BEST CASE SCENARIO HANDBOOK shows readers how to cope with sudden wealth, power, love, success and earthly glory. In scenario after scenario, it's what to do when life takes a turn for the lucky. When for example, your car is bumped by another vehicle on a country road and Bill Gates stumbles out and slurs, "What'll it take to make this go away?" When a university accidentally admits your child - with a full scholarship. When a cash machine goes berserk and starts spewing cash. THE BEST CASE SCENARIO HANDBOOK combines practical information (what do experts advise lottery winners?) with shrewd social strategy, and is illustrated throughout with first-aid style black-and-white line drawings.
