Prepare for World War D We thought the dinosaurs were all gone. We were dead wrong. 65 million years ago, a species of evolved dinosaurs left our Earth, and now they're back. It's the Jurassic War of the Worlds as these Neosaurs commence a massive invasion to reclaim their planet and make Mankind extinct. Don't miss out on this action-packed miniseries by celebrated creator Rod Espinosa that will give a whole new meaning to the term "D-Day".
