<p>Yo mama sucks.<br />

<br />

For years, everyone has talked about yo mama, pointing out her failings in important areas such as appearance, mental capacity, and weight. Now, two researchers and retired sewer cartographers have spent over a decade investigating yo mama, assembling a wide range of evidence against her. They stalked, photographed, and studied the horrible woman who brought you into this world&mdash;yo mama&mdash;then compiled their findings.<br />

<br />

The result is <em>A PORTRAIT OF YO MAMA AS A YOUNG MAN</em>. This unprecedented expos&eacute; proves once and for all<em> </em>that the woman who is arguably dearest to you in life&mdash;yo mama&mdash;is stupid, crazy, a failure, physically unattractive, deceitful, a bad mother to you, unthinkably overweigh</p>
