装帧:Pap

isbn:9780715320921

A website is an invaluable tool whether you just want to post family pictures for your relations overseas or whether you want to market yourself as a professional photographer. This book will teach you how to set up a basic website for free, as well as arming more serious photographers with the knowledge they need to go about creating a professional web site and avoid all the pitfalls. Uniquely, the book will be accompanied by specially built example websites, with ideas and techniques clearly demonstrated in a live online environment, alongside forums and message boards for

readers to use.
