In this full-color Designer's Notebook, eight expert French photographers reveal their secrets in using Photoshop and a collection of dedicated applications to create extraordinary panoramic photos - including some amazing 360-degree images. For anyone involved with digital imagery or animation, this groundbreaking volume demonstrates a new way of thinking about what's possible and what's required to produce these images. Originally published in France, Assembling Panoramic Photos:

A Designer's Notebook is available in English for the first time. Part art book, part how-to guide, this stunning work takes you right into the studio and sits you down next to renowned digital artists as they advance step-by-step toward their final images. The showcased pieces are inspiring and avant-garde, and the techniques are instructive for a wide range of amateur and professional photographers, graphic designers, and digital artists. The artists featured in this Designer's Notebook show how they use Photoshop, Stitcher, PanaVue ImageAssembler, and other specialized tools to create high-quality panoramas and wide-angle images from a series of photos. They also show how to create virtual reality scenes with Apple's QuickTime VR in conjunction with leading-edge technologies that support 360-degree one-shot photos, cubic images, and 3D views of objects. The results are interactive, often startling, and bear the hallmark of each artist's original vision and skill. Reflecting the very best of French photography, graphic design and digital artistry, Assembling Panoramic Photos: A Designer's Notebook offers advanced Photoshop instruction that goes beyond opening this menu, or clicking that palette. You receive expert aesthetic guidance, from start to finish, with notes and views that reveal every step of the process. This book is a goldmine for any digital artist who wants to learn new Photoshop techniques and exploit them for maximum effect. At home on either your coffee table or desktop, the book itself is dazzling in concept and design.
