isbn:9781584281702

Combining two disciplines--posing and wedding portraiture--this professional resource helps photographers create flattering poses to build the best possible portraits and highest possible sales. Photographers are taught how to position the

head, shoulders, torso, arms, hands, legs, and feet to correct figure flaws, make a client feel relaxed, and evoke a dynamic image that tells a story or defines a relationship. The challenges of shooting on location are addressed with tips for adjusting poses in any situation. A discussion of body language and how small adjustments can change an entire mood provides photographers with the ability to help their clients convey a variety of desired messages, whether elegant, sexy, or playful. Standing, seated, and floor poses are covered along with specific techniques for photographing brides, grooms, and wedding parties.
