A flip book, folioscope, thumbfilm, cine de dedo--call it whatever you wish. It's miniature, black and white, fits in the palm of your hand, and reads charmingly both from front to back and back to front. Whether you choose to watch those famous three words become animated ("I Love You"), a lovely brunette dance "sans" underwear ("Oops "), a tribute to a famous photographer ("Hommage to Michals" and "Hommage to Mapplethorpe") or a musician's surreal dream of a dancing couple ("Tango Dancers"), is up to your own flippery.
