isbn:9781584282198

Master the demanding lighting needs for weddings of any variety with this comprehensive guide from an industry expert. All the basics are covered, including how to choose and use the right equipment, how to control light and shadow while

outdoors, how to utilize ambient room light and natural light, and how to ensure the best color balance for each image. Technical tips from 40 top wedding photographers cover such specifics as producing window-light images and using such tools as scrims, umbrellas, and gobos. With the right lighting know-how, a photographer can capture with ease the candid looks and pure emotions of the wedding party.
