isbn:9780810948327

Olivier Follmi has taken superb photographs around the world for his various books on the Himalayas, India, and now Africa. This new book is a journey across Africa through Follmi's eyes. Similar in format and mood to his Homage to the Himalayas, he has written the captions and provided the context for each of the images. Together, word and image reveal Africa as a mosaic of cultures and peoples, each more beautiful and splendid than the one before.
