Rising dramatically above all other skyscrapers at the tip of Manhattan, the World Trade Center symbolized New York. From any direction the Towers were lodestars, Manhattan's local mountains. The seventy-two images of the World Trade Center

presented in this book depict a New York we once knew, one we are now working to rebuild. For more than two decades, practically since the Twin Towers were erected, Sonja Bullaty and Angelo Lomeo photographed these awesome buildings. The pictures featured here portray the site from all directions, starting with views from the east at dawn, and ending with evening views from the west. There are captivating panoramas from Brooklyn, Lower Manhattan, New Jersey, and uptown, taken in all seasons, as well as a section showing the grand Plaza at the center of the buildings. Together, they create an unforgettable portrait of the Twin Towers.
