Award-winning nature, wildlife, and travel photographer Adam Jones has captured the essence of Kentucky in this stunning collection of color photographs. All seasons are represented, with images ranging from brilliant maples in fall to vast fields of spring crops, from charming small towns blanketed in snow to festivals in the heat of summer. Also featured are photos showcasing the rich culture of the state: the Beaux Artsstyle capitol in Frankfort, wildlife of the marshes and woodlands, tobacco harvesting near Lexington, historic settlements, Civil War reenactments, family farms, pow-wows, the Kentucky Speedway, and Mammoth Cave National Park, just to name a few.
